## LOCATING SERVICES

## PROVIDING A TURNKEY SOLUTION

As underground construction continues to grow, so does the need for damage protection of buried utility infrastructure. Adesta has the capabilities to provide a complete turnkey solution to all aspects of the “one-call” system and utility locating. Our services, which are described in detail below, include screening and dispatching tickets, locating underground facilities, site protection, and after-hour emergency response services. We also have the ability to develop a customized solution that best meets the needs of any owner of underground facilities.

### Utility Locating and Site Protection Services

- Qualified dispatchers to screen locating requests and dispatch locators
- Locating services 24/7, 365 days a year
- Field technicians trained with the latest locating techniques
- Experience in metropolitan and rural areas
- Logged and archived time stamped photographs
- Preventative Maintenance: route patrols, inspections, and joint meets
- Provide “watch & protect” services
- Damage Investigation
- Ability to create as-built drawings as well as collecting GPS data
- Private Locating Services
- Customized reports to meet specific needs

### Rely on Our Experience

Our locating technicians average over 10 years' experience in utility locating and damage prevention. Adesta is committed to providing education and growth to our employees. Our eight week training program utilizes both classroom and field training.

- Classroom sessions providing an overview of the locating process
- Specialized one-on-one training from the instructor
- Trained to visually inspect the area and ask questions, never assume
- Trained to locate all types of underground utilities in varying conditions
- Trained to use the latest locating products

### Trust in Our Standards

Adesta has an aggressive safety program to secure our workers. It's our company policy to perform all work in the safest manner possible consistent with good business practice and have received numerous awards from the National Safety Council. In March of 2016, we were again recognized by the National Safety Council with the Award of Honor with Distinction for our safety results and achievements over the past sixteen (16) consecutive years.
